#### Alexandre Picca-Project Manager, KRAL

Mr. Alexandre Picca is in charge of Asia and Eastern Europe for the Flow Measurement Business Unit at the global headquarters of KRAL AG in Western Austria - a leading provider of Flow meters and Flow Measurement Solutions in the Marine Industry, established since 1950. Alexandre has been working since 2015 on several pivotal KRAL projects for the Marine Industry, such as : to improve the use and awareness of error propagation for ship owners and charterers, to train distributors about the new EU MRV and IMO DCS maritime regulations, and to improve KRAL's state of knowledge about the Return on Investment (R.O.I) and competitive advantages of ship owners when using KRAL Flow Measurement Systems.

With an academic technical background, Alexandre has acquired a double Master degree of Science (double M.Sc.) from the Philipps-University of Marburg in Germany (マールブルク大学) and the French *Grande Ecole* (グランゼコール): INSEEC Business School in 2012.

Amongst projects and symposia, his experience in the Marine has led him to co-host in May 2017 the conference: "Accurate Fuel Measurement & Best Practise in the Marine Industry regarding the EU-MRV and IMO-DCS" in Turkey. Besides, Alexandre gave a speech in October 2017 at the SMM Mumbai in India, regarding measurement accuracy and the new regulatory context in the
